

WRAPAROUND CASE PACKER

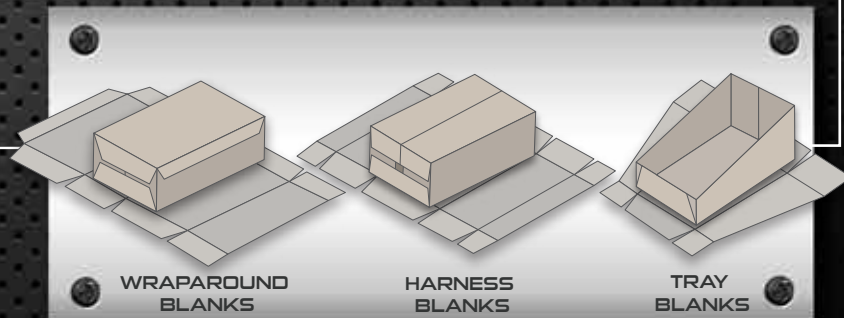

Wraparound case packer advantages include:

- Potential corrugate savings
- Case squareness
- Multiple case style options
- Outside or inside manufactures flap
- Increased case blank magazine capacity
- Open case loading for positive product handling
- Full over lapping flaps (FOL) capabilities

The wraparound case packer has several advantages over other case packing options. This machine is capable of handling the wraparound case blank, harness style case blank, and tray blank.

CASE BLANK CAPABILITIES

Streamlining Production Through Automation™

WACP MACHINE OVERVIEW:

ITEMS IN **BOLD** ARE STANDARD OFFERINGS

CASE BLANK CAPABILITIES:

Wraparound blanks

- (optional) • tray style case blanks
- harness style case blanks
- knock down (KD) style case blanks

INFEEED OPTIONS:

- (optional) • lane divider with grouping (ideal for bottles & jugs)
- high speed rotary upstacker (ideal for cartons)
- low speed bump upstacker (ideal for cartons)
- flood feed (ideal for cans)
- racetrack infeed (ideal for cartons & sleeved product)
- indexing paddles (ideal for cartons & sleeved product)

PRODUCT LOADING OPTIONS:

Servo driven cross push mechanism

- (optional) • mechanical gripper
- vacuum gantry
- overhead loader
- robotic

MAGAZINE OPTIONS:

3' standard power-feed magazine

- (optional) • 6' power-feed magazine
- low level magazine
- dual blank magazine
- opposing cup case setup

GLUE SYSTEM:

NORDSON ProBlue® Series

- (optional) • inside manufacturers flap
- inline compression of manufacturers flap

GUARD DOORS:

Aluminum extruded frame with 1/4" clear or dark acrylic panels

- (optional) • stainless steel mesh panels

FRAME:

3"x3"x1/4" wall tubular mild steel frame

- (optional) • 300 series stainless steel
- 300 series stainless steel with no penetrations

FRAME FINISH:

Powder-coat polyester resin finish

ELECTRICAL:

Allen Bradley Human Machine Interface (HMI) Allen Bradley Panel View 700 with ethernet capabilities (wago)

- (optional) • Allen Bradley PV1000+ with ethernet capabilities

Allen Bradley compact logix PLC with ethernet capabilities

- (optional) • Allen Bradley control logix PLC with ethernet capabilities

Allen Bradley guard door switches (interlock doors)

Bosch indramat servo motors and drives

- (optional) • Allen Bradley Kinetic 6000 servo motors and drives

Allen Bradley 3-color light stack with audible alarm

NEMA 12 electrical enclosure with external power receptacle and computer port

- (optional) • NEMA 4x electrical enclosures and standards

Interface wireway

Category III safety circuit

480 VAC, 3ø, 60 Hz

- (optional) • 240 VAC, 3ø, 60 Hz

PNEUMATICS:

Busch dry vane vacuum pump

- (optional) • Venturi vacuum generators

SMC valves and cylinders

Parker fittings

- (optional) • Centralized enclosure

ADJUSTMENTS:

Digital indicator with handwheels

Power adjustment for movements over 12"
